The school aims

Rationale

This school has a responsibility to promote a healthy life style. Smoking/vaping is a health and safety issue for all adults who use the school. It is the single most preventable cause of premature death *and* ill health in our society. Passive smoking (breathing other people's tobacco smoke) is also potentially fatal. It has been shown to cause lung cancer, as well as many other illnesses, in non-smokers. At this school we give a clear message that smoke-free is the norm, provide smoke-free role models, and demonstrate the school's commitment to promoting healthy life styles.
